Nagios Server Setup

Setup a nagios server and monitor the following local services:

- Current Load
- Current Users
- HTTP
- PING
- Root Partition
- SSH
- Swap Usage
- Total Processes

Prefix the service name with your PRN# as shown below:

Limit Results: 100 ▼		
Host ⬆️⬇️	Service ⬆️⬇️	Status ⬆️⬇️
localhost	1234-Current Load	OK
	1234-Current Users	OK
	1234-HTTP 	OK
	1234-PING	OK
	1234-Root Partition	OK
	1234-SSH 	OK
	1234-Swap Usage	OK
	1234-Total Processes	OK
